

**WE CAN'T COMPROMISE OUR PRINCIPLES  
WHEN IT COMES TO  
NATIONAL IMPROVED MEDICARE FOR ALL**

- Health over profits.
- Everybody in, nobody out.

We support NIMA, but the new bill led by Congresswoman Jayapal has at least three serious flaws that compromise core principals laid out in the previous gold standard, HR 676.

The key improvements needed are:

1. Prohibiting for-profit providers and buying out their facilities.
2. Including everyone from day one.
3. Guaranteeing that all residents are included in the national system.
